

DESIGNER PLANTS
BRINGING YOUR SPACE TO LIFE

Luxury Artificial Palm Trees

Engineered for Commercial Performance

Built for scale, safety and long term use

Made to order for each project

Each Artificial Palm Tree is made to order so that your Artificial Palm Tree can be customised to suit your design and installation needs.

Why Designer Plants is the trusted choice

Quality each and every time

UV Stable Materials

Competitors' products will fade and turn blue after exposure to UV light. Designer Plants products are made with UVTex® protection to ensure that they stand the test of time in even the harshest weather.

Natural Look and Durability Guaranteed

Competitors' products look fake from day one. They fray and fade as time goes by. Designer Plants products are made with RealTex® materials to ensure that your products look as natural as a real plant and last for years.

Designer Plants Advanced Material Systems

RealTex ®

Unmatched natural appearance

FireTex ®

High Quality Fire Resistance

EcoTex ®

Earth Friendly and Ethically Manufactured

UVTex ®

Advanced UV Protection

SafeTex ®

Non-Toxic materials

Artificial Palm Installation Guide

Easy 3 step installation

Step 1: Secure the Base

The palm's weight rated steel tree base can be installed onto a suitable surface with direct bolts. Final footing, load requirements can be confirmed and adjusted prior to ordering so that this is site suitable.

Step 2: Install the Palm Leaves

The palm leaves are inserted into the pre-formed slots at the top of the trunk.

Step 3: Marvel at your Palm!

Looks Incredible!
Installation methods vary depending on site conditions. Always confirm prior to ordering and installation.

Our Projects

Why an Artificial Palm for your next project

Where can I use Artificial Palms?

Just about anywhere! As long as the space is big enough. Artificial Palms are perfect for any space but are especially suited for spaces where scale and wow factor is the goal because they make a statement!

Residential Developments

Theme Parks and Attractions

Why use Designer Plants Palm trees?

The big difference is the quality! Solid injection molded leaves, steel core construction and a hand-made fibreglass trunk means that your tree isn't going to crack, fade or fall apart. It's money well spent for the highest quality palm you can find.

Why do Artificial Palms work best?

Artificial Palms are perfect because:

- ✓ No Maintenance
- ✓ No irrigation required
- ✓ No ugly dying leaves
